Unison Hardware, Inc., warrants that its INOX product shall be free from defects in material and workmanship for three years for Commercial use and ten years for Residential use, excluding components made of wood, leather, or plastic. This warranty extends to the original purchaser and the first consumer owner only. If a product fails due to defect in material or workmanship during the warranty period, we will replace it with the most nearly identical product that we sell at the time. Unison Hardware will not be liable for any labor charges or freight costs incurred in connection with repair or replacement of a product. Our sole and maximum liability for defective goods sold and manufactured by Unison Hardware, Inc. shall never exceed the cost of the subject products.

Limited Electronics Warranty

This warranty does not cover:

- a. Damage resulting from negligence, misuse, abuse, or accident occurring during or after installation
- b. Damage due to use outside normal architectural requirements
- c. Defects resulting from any modification or improper installation
- d. Improper torquing (tightening) during or after installation
- e. Improper door preparation
- f. Use of residential grade products in commercial applications (public building, restaurants, offices, etc.)
- g. Products installed in exterior application and/or exposed to the water, outdoor weather, or elements

Custom Items

Limited Lifetime Finish Warranty

Unison Hardware Inc. warrants its INOX products made of stainless steel material and with stainless steel finish (bright or satin) against tarnishing so long as proper, regular care and maintenance occur. This warranty is extended to the original purchaser of INOX products if the user occupies the residential premises on which the products were originally installed.

Not covered under this Warranty:

- a. Product that has been scratched or abraded
- b. Product that has been incorrectly installed or mistreated
- c. Product installed in exterior applications and/or exposed to the water, outdoor weather, or elements, harsh environments, and/or commercial or industrial applications
- d. Living Finishes, which are specifically designed to wear over time (e.g., Oil Rubbed Bronze 10B or Graphite Black 19G finishes)
- e. Use of bleach, chlorine, ammonia, and other harsh cleaning products will void this warranty

CeraMax™ Finishes

CeraMax ceramic coating is guaranteed against finish defects and cracking, chipping, peeling, and flaking under normal use for up to five years (residential interior use) or two years (commercial interior use). Ceramic coating will wear over time under normal use, and this warranty does not cover normal wear and tear of the product (which varies per color of finish) or any damage, alteration, or abuse to the finish from neglect or accidental damage. Exterior installation or exposure to UV light will affect ceramic coating as part of normal wear and tear. INOX CeraMax ceramic coating is not UV rated. **Contact INOX for information on higher UV CeraMax protection if needed.**

UNISON HARDWARE, INC. MAKES NO OTHER WARRANTY, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE DURATION OF THE EXPRESSED WARRANTY PERIOD AS SET FORTH ABOVE. THE COMPANY'S MAXIMUM LIABILITY HEREUNDER IS LIMITED TO THE PURCHASE PRICE OF THE PRODUCT. IN NO EVENT SHALL THE COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, INCIDENTAL OR SPECIAL DAMAGES OF ANY NATURE ARISING FROM THE SALE OR USE OF THIS PRODUCT, WHETHER IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE. THIS LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF.

Care & Maintenance

Lever and Knob Handles

When installed correctly in accordance with the instructions, levers will not require initial adjustment. All fixings should be checked **from time to time based on conditions of use to adjust or tighten if needed**. Badly fitted hardware can cause interference with the operation of the lock and damage the surface or finish.

INOX® snap-on rose covers should only be removed using proper tools. **Be extremely careful to avoid marring the door and hardware finish if removing a snap-on rose cover. Contact INOX for more information.**

Care of Finishes

Today's environment exerts an immense toll on product material; hardware must be able to stand up to such atmospheric conditions as pollution, salt spray, and high humidity. Additionally, products must be protected against cleaning agents/solutions, and ideally the product should offer hypo-allergenic properties. Here are some tips **for** taking care of INOX finishes.

Stainless Steel is renowned for superior resistance to corrosion and for high performance with low maintenance. Stainless steel corrosion resistance is due to the presence of a thin, durable film of passive but stable chromium oxide. This film is inert, invisible, extremely adherent, and self-repairing, so it provides an unrivaled protection for steel; should the film be damaged or removed it will regenerate independently, provided oxygen is present to allow the reaction to occur with the chromium content of the steel. Therefore, you should ensure regular cleaning and maintenance of the hardware to restore the original surface appearance, prevent corrosion, and maintain hygienic conditions.

Cleaning

- Initially, wash down the surface using **a special polishing agent for stainless steel, such as Flitz, or soapy water or a very mild detergent**.
- Always thoroughly rinse the cleaning agent away with clean, warm water.
- Dry and polish the item with a soft, dry cloth. With aggressive conditions such as offshore, marine, and swimming pool environments, it is especially important to ensure that cleaning maintenance occurs regularly. Discoloration - If spots appear on the surface it is **not a property of** the stainless steel, but impurities in the water, the air or to cleaning agents that have not been thoroughly removed from the surface.
- Spots can be avoided by careful cleaning.
- If discoloration or spots occur, remove by using special polishing agents for stainless steel or a light scouring cream.
- Finally, rinse thoroughly with clean water and polish with a soft, dry cloth.

What to Avoid!

- Scouring powders **and pads**
- Steel wool
- Strong abrasive materials

Care of CeraMax™ Finishes

- CeraMax ceramic coating finishes can be easily cleaned by wiping with acetone or Windex® and a microfiber cloth. Never use abrasives **to clean ceramic coating**.
