

CODELOCKS INC. PRICELIST

Codelocks designs and distributes innovative locks, from heavy duty and stylish mechanical locks to cutting-edge electronic and smart locks that use the latest technologies.

The locks can be used for a variety of applications, including doors, cabinets, lockers and enclosures. Access control is made easy, whether the application involves limiting building and room access or safeguarding confidential or hazardous materials.

Convenience is at the heart of Codelocks products, which are designed to be user-friendly and give you complete control over who has access. The locks are cost-effective, easy to fit and program, can be retrofitted and do not require complex wiring or external power. Programming options include remote code generation, audit trail and code free options, along with a variety of other functions to suit your needs.

Innovative technology plays an increasingly important role in enabling smart lock features. For example, with NetCode® you can set temporary access codes remotely through our cloud portal. Our product innovation is bringing the convenience of access control to new markets, such as short-stay rental property, leisure facilities, music studios, schools and colleges, as well as traditional office buildings.

Our products are cost-effective, easy to fit and program, suitable for new installs and retrofits. We offer full access to expert technical advice and customer support and our products are available through a number of channels including direct web sales, locksmiths, installers, major resellers and OEMs.

KitLock by Codelocks is a convenient and stylish alternative to traditional key-operated locker locks. Cabinets and lockers in any setting, including gyms, leisure centers, schools, hospitals, data centers and offices can be opened using a keypad code, eliminating the inconvenience of coins and keys.

ACCESS CONTROL

Control + Convenience is at the heart of all our products.

SMART THINKING

We strive to create innovative solutions, not just locks.

DESIGN + DELIVER

High quality products, designed in-house and delivered globally.

FIRST CLASS SUPPORT

We provide hands on, expert sales, marketing and technical support.

CODELOCKS INC WARRANTY

Codelocks Inc. warrants all products to be free from manufacturing defects in material and workmanship which carries a TWO Year Limited Warranty on Electronic Locks, and a limited lifetime warranty on Mechanical Locks.

Codelocks Inc. warrants its finish with a ONE Year Limited Warranty against tarnishing on both the Electronic and Mechanical locks to the original purchaser or premise owner at the location originally installed. This warranty does not cover damages from scratches or abrasions, abuse, or misused products, effect of climate conditions and aggressive environments, or damages from chemical or abrasive actions from harsh or caustic cleaning materials, methods or polishing practices.

Products sold by Codelocks Inc. but manufactured by other companies carry the warranty of the original manufacturer and not the warranty of Codelocks Inc.

Our warranty does not cover defects or damages arising from improper application or installation, improper maintenance, improper storage, shipping and handling damage, ordinary wear and tear, misuse, abuse, accidental damage, unauthorized service, improper power, voltage or battery use, leaking or defective batteries, unauthorized modifications to any part of the lock or locking mechanism, damage caused by improper disassembly techniques or tools, damage caused by improper code changing techniques, Acts of God or natural causes and disasters, or use with unauthorized non-Codelocks products or parts.

For full terms and conditions visit: www.codelocks.us/terms-and-conditions
